Should I bring anything else?
We recommend bringing an extra change of clothes, bug spray and extra money just in case you may want to buy a drink or snack between games. Feel free to bring your own drinks and snacks.

What should I wear?
Pants and long sleeves are required (NO Shorts Allowed) preferably dark in color. Old camouflage gear works great. Wear a comfortable pair of pants, boots, cleats, or sneakers. We always suggest you bring more clothing then you can wear, this way you can always take clothing off if you get hot or decide that you don't need it. Remember, paintballs do wash out, but it is suggested that you wear something that you don't mind getting a little dirty, as you will be running around in the woods.

Does it hurt when you get hit?
Every marker or gun is checked for velocity before each game so that the paintballs are flying at less than 300 feet per second. At these speeds, the ball's impact is more startling than painful, something like the quick sting of a rubber band.
